ABOUT THIS FONT SET
Hand-crafted and a little off-kilter, this all-caps typeface is great for titles and headers when you want a "Hey you, look at me!" impact with an informal tone.

HOW IT WORKS
Each box above represents a single [key] on your keyboard. When you have selected this font in your application, pressing the [keys] will insert the letter or symbol you usually expect, so tap away happily. Upper/lower case alphabet selections will both produce "caps." If a [key] space is blank, that means this font doesn't include a custom version of that character.
