ABOUT THIS FONT SET

These thought-provoking charts flow with purpose and agency. They were inspired by women and girls, and can be used to lead anyone. In fact, we've recreated them as as blank slates 'cause we know you want to set your own direction.

HOW IT WORKS

The boxes above represent [keys] on your keyboard. When you have selected this font in your application and then choose a particular letter, number or symbol [key], the icon you see indicated above will appear instead of the usual character. Note that pressing your upper/lower case [keys] will change which chart appears, so map your course according to the directions.

ABOUT THIS FONT SET
Use this inventive alphabet for headlines and titles that point your readers where you want them to go.

HOW IT WORKS
Each box above represents a single [key] on your keyboard. When you have selected this font in your application, pressing the [keys] will insert the letter or symbol you usually expect, so go ahead and close your eyes as you type. Upper/lower case alphabet selections will both produce "caps." If a [key] space is blank, that means this font doesn't include a custom version of that character.
